

Mohd. Imran Hossain

Full Stack Developer (MERN & Next.js)

+8801741545420 (WhatsApp) | Khulna, Bangladesh | [Gmail](#) | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Career Objective:

Seeking an opportunity as a Junior Full Stack Developer, MERN Stack Developer, or Next.js Developer where I can contribute to real-world projects, enhance my technical expertise, and grow as a web developer while delivering value through modern web technologies

Technical Skills:

Expertise : JavaScript | React.js | Node.js | Express.js | MongoDB
Comfortable : Next.js | TypeScript
Familiar : Python | Django
Tools : Git | Github | Postman | Vercel | Netlify | VS Code
Soft Skills : Problem Solving | Self-Learning | Analytical Thinking - [Codeforces Link](#)

Projects:

1. Scholar Stream - [Github Client Link](#) | [Github Server Link](#) | [Live Link](#)

Project Overview: Scholar Stream is a full-stack scholarship management platform where students can discover, apply for, and manage scholarship opportunities. The platform also provides administrative tools for managing applications, reviews, and scholarship data.

Key Features:

- Scholarship Discovery, Filtering and Application System.
- Role-Based Dashboard Functionality (Admin | Moderate | Users)
- Review and Rating System.

Technologies Used: React | Node.js | Express.js | MongoDB | Firebase | JWT

2. SkillHub Academy - [Github Link](#) | [Live Link](#)

Project Overview: SkillHub Academy is a learning management system that allows instructors to create courses and students to browse, enroll, and manage their learning journey through a modern educational platform.

Key Features:

- Course Creation & Management System.
- Student Enrollment Workflow
- Dashboard Architecture with Protected Routes.

Technologies Used: Next.js | Node.js | Express.js | MongoDB | Firebase | Vercel

3. Local Food Lovers Network - [Github Client Link](#) | [Github Server Link](#) | [Live Link](#)

Project Overview: Local Food Lovers Network is a community-driven web application where food enthusiasts can share food experiences, discover local food events, and connect with people who share similar interests.

Key Features:

- Community-Based Event Discovery System
- Food experience sharing.
- Dynamic content management.

Technologies Used: React | Express.js | MongoDB | Firebase | Netlify

Education:

- Master of Arts in English | Govt. B. L. College, Khulna, Bangladesh | 2008-2010

Professional Certifications:

- CSE Fundamentals with Phitron | Fall 2022 - [Certificate Link](#)

Language Proficiency:

- Bengali (Native)
- English (Comfortable)
